

JOHN CHRISTIAN ORAA

Full Stack Developer | PHP & Laravel Specialist

johnoraa24@gmail.com • +63 966 667 2764 • City of Cabuyao, Laguna 4025

Portfolio: <https://oaa-dev.vercel.app>

PROFESSIONAL SUMMARY

Dedicated Full Stack Developer with 5+ years of experience building scalable, well-documented, and production-ready web applications across e-commerce, gaming, healthcare, e-learning, and government sectors. Proficient in PHP/Laravel backend development, ReactJS frontend implementation, RESTful API design, and containerized cloud deployments. Recognized for strong analytical skills, collaborative approach with cross-functional teams, and a commitment to delivering efficient and user-friendly systems.

PROFESSIONAL EXPERIENCE

Fullstack Developer

March 2025 – Present

Bticket

- Utilized Laravel, MySQL, Redis, and RabbitMQ to create an efficient, well-documented, and testable backend architecture.
- Used Next.js, TypeScript, Shadcn UI, and Tailwind CSS on the frontend application.
- Wrote unit tests to ensure code reliability and maintainability.
- Collaborated with the UI/UX design team to align technical implementation with interface requirements and deliver optimized, user-centered experiences.
- Leveraged AI tools (Claude AI, Augment) to accelerate development workflows.

Software Engineer (Mid PHP Developer)

July 2022 – January 2025

EK Consulting and Management Services Inc.

- Maintained and enhanced back-office systems for a gaming platform, including Players Wallet, Transaction History, Coupon Management, and Reporting modules.
- Developed and managed a Content Management System (CMS) powering the client-facing frontend site.
- Provided on-call technical support for both players and internal employees, ensuring system stability and prompt issue resolution.

Part-Time PHP Developer

2022 – 2023

Mood Learning / BlitzDev IT Consultancy

- Delivered multiple client projects including an E-Learning System, Agricultural Management System, Hotel Reservation System, Content Management System, and Online Health Declaration System.
- Handled full project lifecycle from requirements gathering and architecture design to deployment and client handover.

Data Analytics and Automation Assistant

March 2021 – July 2022

Integrated Micro Electronics Inc.

- Built a customizable report generation system enabling users to generate, display, and export data reports on demand.
- Automated recurring report generation workflows, significantly reducing manual effort and turnaround time.
- Optimized database queries for improved performance and faster data retrieval across large datasets.
- Created user-friendly documentation and delivered technical training and support to foreign employees.

PHP Developer (Laravel Framework)

August 2020 – January 2021

City Government of Cabuyao

- Developed a Scholarship Management System (V2) streamlining student records and scholarship tracking.
- Built a Disaster Risk Reduction and Management System and the Cabuyao COVID Tracker for vaccination and case monitoring.

OJT Intern — PHP Developer

November 2019 – March 2020

Cabuyao Youth Development Affairs Office

- Developed the Scholarship Management System for Cabuyao City scholars, covering online application processing, automated record-keeping, and tracking.
- Provided training and technical support to city officials on the deployed system.
